Access to Knowledge through the Grid in a mobile World

Ist Akogrimo Workshop

6. March 2006

**Access to Knowledge Through
the Grid in a mobile world**

Date: 06.03.2006

Time: 09:45

RUS/HLRS Seminarroom

This workshop is open to the public and is particularly addressing research and industry looking into the integration of context, knowledge and networks with Grid concepts.

The purpose is to present selected results from the Akogrimo project together with results achieved in other relevant projects in order to provide the audience an overview of the results achieved and how they fit in a larger context.

9:00—9:45 Registration

9:45—10:15

Akogrimo Overview,
Stefan Wesner, HLRS

10:15—11:00

The Daidalos approach to a future mobile infrastructure,

Hans Werner Bitzer, T-Systems

11:00—11:30 Break

11:30—11:50

Acquisition, Storage, and Provision of Access Network Information with Nexus

Stephan Lück, IKR University of Stuttgart

11:50—12:15

Trust Modeling and Evaluation in Nexus

Andreas Gutscher, IKR, University of Stuttgart

12:15—13:00

Business View of Akogrimo

Dr. Martin Hafner, University Hohenheim

13:00-14:15 Lunch

14:15-15:00

The Akogrimo Architecture

Jürgen Jähnert, RUS

15:00-15:45 Integrated Prototype and Demo Overview

Víctor Villagra, UPM

15:45– 18:00 Demonstration of the prototype

1st Akogrimo Workshop

6. March 2006
